

Watch out for Fakes

Hello everyone:

First, we sincerely apologize to everyone for the inconvenience we brought you. Because our PCMtuner is so popular that some bad merchants maliciously use our logo in the market. Since the counterfeit device does NOT have any functions of the genuine PCMtuner, it will cause the misleading and loss to you.

Here, we notice everyone of the fakes.

The fake version of PCMtuner is shown as below:

The fake version cannot get the technical support account of the official website (tuner-box.com);

The fake version cannot enter the tuner account of website (<https://support.vz-performance.com>);

The fake version cannot obtain virtual files, WinOls map package, AL2, and Mappackage;

The fake version cannot get the technical support of tuner;

The fake version cannot enter the 10,000-person technical support community;

The fake version cannot get the genuine software;

The fake version cannot be updated online;

The fake version cannot be used online;

The fake version cannot enter the WHATS APP technical support group;

The quality of the fake version cannot be guaranteed;
